Random Inmate/Resident/Detainee Interviews

53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	13
54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input checked="" type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None
55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	The auditor conducted interviews with random and targeted residents. The resident population on the first day of the onsite review was Redacted. All reasonable efforts were made to conduct the required number of targeted resident interviews. The auditor selected additional residents from the available targeted populations and increased the number of random resident interviews to ensure that the appropriate numbers of residents were interviewed. There was a total of 16 formal resident interviews conducted. The auditor selected residents randomly by using a full roster provided at the beginning of the on-site review. Interviews were conducted with at least one resident for each living area of the facility and included both male and female residents.
56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	No text provided.
Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	3

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No

--	-------------------

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

If the resident declines to have the request processed on his or her behalf the agency document the residents' decision.

2. Agency PREA Coordinator

Site Review Observations:

Observations during on-site review of physical plant

(a) Whenever an employee knows or suspects, or receives an allegation from any source regarding patient sexual abuse, the employee will immediately notify the responsible health authority.

(b) Prophylactic treatment and follow-up care for sexually transmitted or other communicable diseases (e.g., HIV, Hepatitis B) are offered to all victims, as appropriate.

(c) Victims of sexual abuse will be referred to a community facility or local emergency room for treatment or gathering of forensic evidence.

(d) Female victims of sexually abusive vaginal penetration while incarcerated shall be offered pregnancy tests.

(e) Female victims receive timely and comprehensive information about and timely access to all lawful pregnancy-related medical services.

(f) Resident victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate.

(g) Medical co-payment fees are not imposed to residents for any medical services.

(h) Mental Health - After any emergency treatment is provided, health care staff will notify mental health staff of event. An immediate referral, including after hours, is the preferred referral format in case of an abuse.

Dismas Charities staff had protocols in place to assist in expediting a resident to Methodist South Hospital for emergency services. Also, facility staff will contact the Shelby County Crime Victims & Rape Crisis Center to provide a victim advocate upon request from the resident during the forensic medical examination. The facility has available the contact information for residents to call or write for additional assistance as needed.

Interviews with staff confirmed that residents (victims) of sexual abuse receive timely and unimpeded access to emergency medical treatment and crisis intervention services. Facility staff indicated that services begin immediately upon notification of a victim of sexual abuse from the supervisor or any other staff to contact the hospital and medical practitioner. All notifications are completed to the appropriate individuals and to follow the medical staff's directive regarding any forensic examination. Random staff interviews indicated the scope of services is in accordance to their professional judgment, policy and any physician orders or protocols. All orders are documented in the residents' health record.

Random staff interviews also indicated that a referral could be made to the hospital to begin any sexually transmitted infection prophylaxis treatment/services and orders for follow-up services. Mental health services would begin when the victim is available once the forensic examination has been completed at the hospital. Random staff interviews indicated mental health staff would see the victim no later than 24 hours of an incident and provide one-on-one counseling and make available outside emotional support services and follow-up care.

Based upon the review and analysis of all of the available evidence, the auditor has determined that the agency is fully compliant with this standard.
